**PRESS RELEASE
FOR IMMEDIATE RELEASE**

MADISON . . . The Department of Regulation and Licensing announced that the following disciplinary orders were issued in November 2003.

Paul Abler, Oconomowoc – Physical Therapist. The Physical Therapists Affiliated Credentialing Board suspended Paul Abler for a period of at least two years, starting May 15, 2003. Abler was convicted of 4th degree sexual assault. After two years, Abler may petition the board for termination of the suspension. His petition must include the names and locations of all persons who have evaluated, treated or educated him, and he shall provide their records and evaluations to the Board. Abler must also provide proof sufficient to the Board that he can practice with reasonable skill and safety to his patients and public. If the Board determines to end the suspension, Abler's license shall be limited to address this disciplinary matter, including a requirement for psychotherapy at Abler's expense, by a therapist approved by the Board, to address specific treatment goals, with periodic reports to the Board. [LS0311041PHT]

Lori Allain, DeForest – Registered Nurse. The Board of Nursing limited the license of Lori Allain and ordered payment of \$500 in costs. Allain verbally abused patients, catheterized a patient once over a 12 hour shift after being instructed to do so every four hours, and disabled a patient's call light. Allain was ordered to complete a rehabilitation review, complete certain education, and to submit reports by her employer to the Department regarding her work performance. Allain shall only practice under supervision and shall refrain from employment as a pool nurse, visiting nurse, or a charge nurse. [LS0311074NUR]

Ze'ev Bar-Av, Madison – Psychologist. Following a hearing, the Psychology Examining Board revoked Ze'ev Bar-Av's license and ordered Bar-Av to pay the costs of the proceeding. Bar-Av conducted both joint and individual therapy sessions for a couple. After the couple divorced, and more than two years after the termination of services, Bar-Av entered into a sexual relationship with the female client. By entering into such a relationship, which he knew or should have known would have a harmful impact on the male client, Bar-Av engaged in unprofessional conduct. Bar-Av has appealed the Board's decision. [LS0303251PSY]

Gary Burkholder, Thorp – Dentist. The Dentistry Examining Board limited the license of Gary Burkholder by ordering him to discontinue any orthodontic treatment on any patient for any reason after December 31, 2003. Burkholder's treatment planning and implementation in his treatment of a patient was found to be less than minimally competent practice of orthodontics. After an examination by a second dentist, it was revealed that the patient had loose bands, missing bands, bands in contact with abrading gingival tissues, several large caries under bands, improper occlusion, no treatment being provided to rotate one upper canine from its 90° twist, and no treatment of the other, unerupted, upper canine. [LS0311051DEN]

Mary Cisewski, Appleton – Registered Nurse. The Board of Nursing limited the license of Mary Cisewski for failing to observe the conditions, signs and symptoms of a patient, record them, or report significant changes to the appropriate person. Cisewski was ordered to practice only under supervision of a licensed professional nurse, provide formal written reports to the Department from her employer regarding her work performance, and to pay \$200 in costs. Ms. Cisewski is not actively practicing nursing and was ordered to complete certain continuing education within six months from the date she becomes actively employed as a registered nurse. Aliasgher Houshmand, Delmar, CA – Professional Engineer. The Examining Board of Architects, Landscape Architects, Professional Engineers, Designers and Land Surveyors – Professional Engineer section accepted the voluntary surrender of Aliasgher Houshmand's license. An investigation by California revealed that Houshmand represented himself as a licensed civil engineer and used the initials "P.E." on his business cards and in signing contracts, but was not licensed by the California Board as a Professional Engineer Houshmand while working for the Department of the Navy at Camp Pendleton, CA. Houshmand failed to comply with all California regulations relating to professional engineering and engaged in conduct affecting his fitness to practice professional engineering. [LS0308071ENG]

Eleazar Kadile, Green Bay – Physician and Surgeon. The Medical Examining Board reprimanded and limited the license of Eleazar Kadile. Kadile published a brochure that contained the representation that he held a board certification but did not specify the complete name of the specialty board that conferred certification. In the same brochure, Kadile advertised "Our Certified Clinical Nutritionist is available to discuss nutritional needs with you" when in fact he had no person on his staff or associated with his practice who was certified to do so, although the identified person has passed a certification test for a national private association in the field of nutrition in 1991. Kadile published an advertisement related to chelation therapy in a Green Bay newspaper which the board found did not have sufficient data to support the representations in the advertisement and therefore may be misleading. The board found that Kadile's records of certain patients whose charts were examined were deficient in some aspects. [LS0112061MED]

John Karns, Brooklyn – Land Surveyor. The Examining Board of Architects, Landscape Architects, Professional Engineers, Designers and Land Surveyors – Land Surveyors section suspended the license of John Karns for ten days, ordered certain education including coursework on the US Public Land Survey System, field techniques and instrument error, and professional ethics. In November, 2000, Oxley received a call from a client while she was the on-call veterinarian. The client’s six-year old St. Bernard was vomiting, barking in pain, and pacing outdoors. Since Oxley had been bitten earlier by a cat and wanted to wait until she had staff to assist her, she told the client to make the dog comfortable and bring him to the clinic first thing the next morning. Oxley failed to discuss the option of the owner taking the dog to a 24-hour veterinary clinic or refer the owner to another veterinarian. In April, 2003, an owner brought her cat to the clinic to be spayed with specific instruction not to declaw the cat. The instruction not to declaw the cat was marked on the surgical board.
